## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Applicant invention is drawn to a war dialing event (WDE) detection and mitigation system and method that analyzes call signaling messages in a telecommunications network to identify war dialing events. The system monitor signaling links or signaling link sets using signaling link probes. The WDE detection and mitigation system may monitor signaling message traffic on one or more signaling links and generate a call detail record (CDR) for each observed call. CDRs may be used by WDE analysis and screening functions associated with the WDE detection and mitigation system to detect a WDE. A WDE may be indicated by the placement of multiple, short duration calls in rapid succession from a calling party to a first group of called parties. Confirmation of the WDE may be obtained by observing a second event, in which a second group of called parties that include at least some called parties in the first group of called parties are contacted by the same or another calling party. Once a WDE is detected, mitigating actions include generating a WDE alarm or notification message and blocking calls from the offending war dialer.

Prior art of record failed to teach or fairly suggest a method and system for detecting a war dialing event in a telecommunications network, the method comprising: (a) analyzing signaling messages associated with calls being made or attempted in a telecommunications network; (b) based on the signaling messages, determining whether a war dialing event has

occurred or is in progress; and (c) in response to determining that a war dialing event has occurred or is in progress, performing a war dialing event mitigation action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
